

MUCH TIME SPENT TALKING OF SUGAR

SENATOR VEST WANTS MORE ENERGY SHOWN.

The Sugar Bills Will Be Taken Up at Once in the Senate If Possible.—Not Much Business in the House.—Bryan Has a Silver Bill—Other Capital News.

WASHINGTON, Jan. 17.—When the senate had disposed of routine business yesterday Senator Hill took up the argument on his appeal from the chair's decision that his income-tax amendment was out of order.

Mr. Vest directed attention to the statements of the senator from Maryland (Gorman) that the senate passed more bills than the house. Mr. Vest declared of course a small body could act on routine bills more expeditiously than a large body. He made a long speech, criticizing his party for their lack of energy, and declared he expected no better things from the return to power of the republicans. As Mr. Vest proceeded several interesting chapters on the enactment of the sugar schedule were disclosed. Mr. Allen (pop., Neb.) asked what the conferees had intended to do on the Hawaiian treaty affecting sugar.

Mr. Vest answered the conferees desired to do away with that treaty. But it was imperative the votes of forty-three senators be secured. It was his understanding the managing committee of democratic senators had agreed with leaders in the house if the latter body yielded and passed the amendments to the tariff bill the senate would in turn take up the special tariff bills, particularly that as to sugar.

Mr. Vest said he did not mean to say there was a positive guaranty, but it was a general understanding which warranted him urging this sugar question should be acted on.

Mr. Teller followed Mr. Vest, urging the latter's criticism on the delay on the tariff bill was not due to delay in the senate, but in the democratic councils. The house democrats had adopted one course, the senate adopted another, and the President had written a letter without parallel in the bitterness of his arraignment of those opposed to his views.

For the purpose of simplification it was agreed to take the first vote on sustaining the chair in ruling out of order the Hill amendment referring the income tax to the courts. The chair was sustained on a ye and nay vote—40 to 6—only five senators, Dubois, Davis, Mitchell (Ore.), Quay and Pettigrew voting with Mr. Hill against the decision of the chair.

Mr. Quay then sought to urge an amendment similar to that of Mr. Hill, but it was ruled out by the chair on the same point of order.

Mr. Lodge presented an amendment to the income tax appropriation providing that the tax should be under civil service rules. The amendment was defeated—17 to 34.

Mr. Quay again thought to get the income tax before the courts by proposing a new section, but on a ye and nay vote the section was defeated—19 to 32.

Mr. Hill then offered an amendment to the income tax provision restricting the interrogatories to persons or firms. Mr. Cockrell, in charge of the bill, accepted the amendment and it was adopted. The deficiency bill was then passed.

FAVOR FREEING DEBS.

Supreme Judges Thought to Be Willing to Accept Bill.

WASHINGTON, Jan. 17.—The Debs case did not come up in the Supreme court until late yesterday. Argument in another matter occupying over an hour of the court's time at the outset. Mr. Darrow, attorney for Debs and his fellow prisoners, had an early conference with Attorney-General Olney, in which the latter, while not making any promises or agreements, left the impression in Darrow's mind that there would be no serious objection urged against the proposition to release the defendants on bail pending arguments on the law points involved. In the event the department of justice should adopt this course, Mr. Darrow would be relieved from the necessity of making a lengthy argument in the case.

The impression prevails here that the Supreme court, as well as the department of justice, is not willing to have the question of the rights of the federal courts to reach out all over creation and punish citizens for contempt brought up for a decision. So much has been said in the press, on the stump and among the people in bitter criticism of the government by injunction that the feeling has become a conviction that an interpretation of the law under which authority to punish for contempt should be had by the Supreme court so that congress may act intelligently in legislating to restrict the power of United States judges and limit their powers, if legislation should seem necessary. The justice of the protest seems to be recognized by the justices of the Supreme court, and the desire on their part seems to be to extend all the favor possible to the attorney for the parties who feel themselves aggrieved in this case, in order to have a chance to pass on the points brought up.

In the House.

WASHINGTON, Jan. 17.—Major T. O. Towles, chief clerk of the house, called

the house to order yesterday and read a communication from Speaker Crisp, who is indisposed, appointing Representative Dockery of Missouri to the chair. Some unimportant business was taken up. Mr. Walker (rep., Mass.) took advantage of the latitude allowed for debate to discuss the conditions of the treasury and the sources of revenue. He said all the republicans asked was that the sections of the currency bill be considered in order. That being refused they voted against its consideration. The republicans would vote for any measure that would furnish sufficient revenue to meet the demands on the treasury and that would reform the currency. The debate was continued by Mr. Warner (dem., N. Y.), Mr. Reed (rep., Maine) and Mr. Simpson (pop., Kan.) in a somewhat humorous manner, and the house then adjourned.

FAURE TO RULE FRANCE

Election This Afternoon Believed To Be Certain.

VERSAILLES, Jan. 17.—Balloting for a president began at 1 p. m. today. The first official ballot resulted:

Brisson 338
Faure 244
Roussau 184
Roussau announced his withdrawal in favor of Faure, who will probably be elected. Last night the chamber was crowded when the sitting opened at 8:30 p. m., with M. Brisson presiding. M. Brisson read Casimir-Perier's letter of resignation. He afterward announced that he had received a letter from

CASIMIR-PERIER.

Challemeil-Lacour, president of the senate, convoking the national assembly for 1 o'clock to-day at Versailles. The president of the chamber then said he had received the constitution, which proposal he could not officially recognize.

In the senate Casimir-Perier's letter of resignation was received badly. When the reading was concluded vehement protests arose from all parts of the house and continued for some time. The senate finally adjourned until Monday.

All the various groups of deputies held separate meetings yesterday, but they have not decided upon a candidate.

The republican groups will unite to force a vote for one candidate of their party. The revisionist deputies are greatly annoyed at the refusal of Brisson in the chamber of deputies to allow a discussion of the proposal to revise the constitution.

FLOQUET THINKS IT IS BRISSON. If the Surmise Is Correct the Latter Will Be Elected President.

PARIS, Jan. 17.—M. Floquet, formerly premier, and one of the most experienced statesmen in France, declared in the lobby of the chamber of deputies yesterday that Henri Brisson, president of the chamber of deputies, could count upon 100 votes in the senate and upon 300 among the deputies. If this is so M. Brisson will be elected president to-day.

The republican senators at their meeting voted for a candidate for the presidency. The following was the result: M. Waldeck-Rousseau, 84; M. Brisson, 66.

After various meetings at the senate the presidents of the republican groups saw Waldeck-Rousseau and strongly represented the intentions of their friends to support his candidacy if he would consent to stand. It is believed that in view of this urging and the fact of the great number of deputies that have promised to support him Waldeck-Rousseau will definitely consent to become a candidate.

Patenotre Thinks Republic Is Safe.

WASHINGTON, Jan. 17.—Ambassador Patenotre of France talked interestingly yesterday concerning the significant features of the resignation of President Casimir-Perier. "It should not be understood," he said, "that the resignation of the president will have any far reaching effect on the country. The republic is absolutely stable and secure, and this event is one affecting only the administration of the government and not the government itself. The change is due entirely to a question of domestic importance, which has no interest or effect beyond the borders of France, so that the results of the resignation will have no significance outside of France. And even then, as I have said, it will effect only the machinery of government."

What Is Thought of the Crisis.

PARIS, Jan. 17.—The attention of the whole of France, and, for that matter, the whole of Europe, is centered upon this city. There is no doubt that the political crisis resulting from the resignation of the Dupuy ministry and the subsequent resignation of Casimir-Perier is one of the most serious in the history of France. The opinion expressed at the clubs and on the boulevards is unanimous with the press in strongly condemning M. Casimir-Perier for having resigned in the midst of a parliamentary crisis. English and German papers are of the same opinion.

SIXTY MET DEATH IN BUTTE'S FIRE

NEARLY EVERY HOUSE IN TOWN IS NOW A HOSPITAL.

The Complete Roll of the Dead Will Probably Never Be Known as Identification Is Impossible in Many Cases—Scenes of Horror After the Explosion.

BUTTE, Mont., Jan. 17.—It is now estimated the number of persons killed by Tuesday night's explosion of giant powder is sixty. Nearly fifty have been identified. The city is in mourning and all flags are at half mast. The relief meeting called by the mayor was largely attended and committees appointed for the collection of money for the relief of the afflicted families. The people are responding liberally and a sufficient amount to relieve distress is already guaranteed. A number of the bodies are mangled beyond all recognition and never will be identified.

The ruins are still smoldering, and it is believed that more bodies will be found under the acres of debris. Inquiries are coming from all parts of the country about friends and relatives who reside in the city and who were supposed to have been here at the time of the explosion.

The mammoth heaps of debris, the charred remains of buildings, warped and shattered fire engines, and mangled bodies of dead horses are still reminders of the terrible work of the fateful night. In addition to the sickening slaughter of human beings the destruction of property is great. Where vast sums of money were represented in well filled warehouses nothing remains but blackened ruins, and the streets of the city sparkle and glisten with broken glass. Butte has more the appearance of a besieged city in the days of war than that of a business center of commerce in times of peace.

When the fire started in the Butte Hardware company's warehouse there was a rumor that there was powder in the building, but this was denied and after a moment's hesitation the firemen began fighting the fire. They had barely started to work when the first explosion came. It is believed in this explosion only three firemen were killed. There were heroes among the spectators, however, and as soon as the stun of the shock passed away, while some ran in terror others immediately began pulling the mutilated bodies of the firemen and the injured from the proximity of the flames. From all over the city people began moving toward the fire and the crowd had greatly increased within five minutes.

Just about the length of time after the first explosion a second explosion almost equal in volume to the first heightened the terror all over the city and spread death and desolation. In this explosion scores of citizens were killed and injured. Parts of bodies were hurled scores of feet away. A man near the Northern Pacific water tank was struck by the leg and thigh of a human being, driven by the force of the dynamite from the scene. There were still heroes left to help pull the shrieking wounded and the groaning dying to a distance, but the people up town hesitated. There had been two explosions and there might be more. There were rumors of carloads of powder in the vicinity besides that stored in the warehouse.

Five minutes later the third explosion came, but it was a mild one, and it is believed very few, if any, were injured in this. It had all occurred in fifteen minutes. The dead were strewn everywhere, and the cries and groans of the injured and dying presented a scene altogether unearthly. Between the Northern Pacific and Great Northern depots, a space of 300 feet, the ground was literally covered with parts of human beings, and with the dead and injured. The houses in the vicinity were as thoroughly wrecked as if a cyclone had passed. One of the rescuing corps gathered twenty-seven dead bodies in one pile, eight in another, and two and three in other piles.

The work of rescue was prosecuted in earnest. Every vehicle in the city was brought into service. The hospitals were filled. The spare rooms in the hotels were taken, and private houses were thrown open where it was necessary. The sights in the undertaking establishments were awful; all were filled with human flesh. Many of the remains were beyond recognition, as were those scattered about the city in houses and hospitals. It is probable a complete roll of the dead will never be known.

A BOARD OF PARDONS TO HAVE ALL POWER

IMPORTANT AMENDMENT PRESENTED IN MADISON.

State School for the Feeble Minded Proposed—Geological and Natural History Survey—Normal School Tax of 1.05 Mill—Library Building Costing \$360,000 Is Wanted.

MADISON, Jan. 17.—A number of important bills were introduced today in both houses. In the senate there was a resolution for a constitutional amendment making the governor, the secretary of state and the attorney general a board of pardons with full power to grant pardons. Other measures grant \$360,000 for a library building for the use of the historical society and the university; regulate the selection of state depositories; impose a tax of 1.05 mill for the benefit of the normal schools; providing for a geological and natural history survey of the state and providing for establishing a state school for the feeble minded. This last measure was strongly urged during both of the Peck administrations and the school was declared to be a necessity, but the bill was killed so the treasury could make a better showing.

ASSAULTS INCOME TAX.

Attorney Jere Wilson Declares that It Is Void.

WASHINGTON, Jan. 17.—The hearing in the case of John G. Moore against Commissioner of Internal Revenue Miller, brought to test the constitutionality of the income tax law, was resumed yesterday in the district equity court. Attorney Jere Wilson made the opening argument and Assistant Attorney General Whitney and Solicitor of Internal Revenue Hough represented the government. At the outset counsel for the complainant cited various authorities to offset the government's claim that the courts have no power to take cognizance of a statute that is void and laid down the proposition that an unconstitutional act is no act at all; an unconstitutional law is no law. This being so the government had no semblance of authority and the courts accordingly could interfere to prevent any government officer from carrying out such an absolutely void law. Where a public officer has a ministerial duty to perform; that is, not one where he may exercise his judgment or discretion, but must do a particular thing, a court may, as a recognized principle, said Mr. Wilson, grant an injunction to restrain such action. The income tax was declared by consul to be one of the most remarkable laws on record, and he cited instances where double taxation could be made, the tax levied on individuals through corporations and then on individuals themselves, also in connection with the corporation.

Assistant Attorney General Whitney assumed the other side meant that only persons having no thrift, energy, or enterprise should be taxed. The statement the tax was unconstitutional and unprecedented because the tax was measured for the entire calendar year, although the act only went into operation Aug. 28, 1894, was pronounced unfounded.

Judge Hagmer will deliver his decision in the case Wednesday next.

ILLINOIS LEGISLATURE.

Minor Doings of the Day in the Senate and House.

SPRINGFIELD, Ill., Jan. 17.—In the house yesterday the committee on rules made its report. The report was adopted and 500 copies were ordered printed.

The resolution regarding the transfer of the Lincoln monument to the custody of the state, which was adopted in the senate last week, was offered in the house by Mr. Jones of Cook, and adopted. A bill appropriating \$8,000 to provide for the contingent expenses of the general assembly was read and ordered to second reading. The house then adjourned. Senator Fisher offered a joint resolution in the senate this morning fixing the date of nominating candidates for United States senator in both branches. Tuesday, Jan. 22, at 11 o'clock, and the time for balloting for senator, Wednesday, Jan. 23, at noon. The resolution was adopted. A resolution appointing Senators Aspinwall, Coon, Morrison, Solomon and Higbee as the committee on enrolling and engrossing bills was adopted. Senator Aspinwall was made chairman of the committee. The senate then adjourned.

Germans Talk of Blood and Powder.

BERLIN, Jan. 17.—The political crisis in France is a great surprise to people here and the opinions expressed of the resignation of M. Casimir-Perier are not complimentary to him. The Post regards the resignation as a well advised counter attack on the parties of revolution. The Tageblatt deprecates the resignation as being that of a friend of peace and adds: "We Germans must keep our blood cool and our powder dry."

Burton Leads for Kansas Senator.

TOPEKA, Kan., Jan. 17.—The republican members of the legislature met in caucus last night to select a candidate for United States senator, but after taking eight ballots adjourned without making a nomination. J. R. Burton of Abilene led from the first and gained steadily, lacking but seven votes of enough to nominate him, when a combination of the other candidates succeeded in forcing an adjournment.

GADSDEN, Ala., Jan. 17.—Joe Cunningham, the 13-year-old son of the chief of police of this city and nephew of Mayor Echols, was killed in a horrible manner at Wharton's sawmill, four miles from here. UNDERTAKER CAGED WHILE FOLKS DIED

VERY QUEER STATE OF AFFAIRS AT KIRKLAND, ILL.

Prominent Citizen Dies and Authorities Refuse to Release the Local Undertaker from the Small Pox Quarantine to Embalm His Remains—Scare Subsiding.

ROCKFORD, Jan. 17.—Kirkland is in the throes of a small pox scare and now that Landlord Morris, of the hotel is under quarantine, his confinement makes it embarrassing for people who die just now. Mr. Morris' niece died of small pox and since then the landlord with a dozen guests have been obliged to stay there.

Mr. Morris also happens to be the only undertaker in the place, having a shop near the hotel. The death of Mr. Tuttle, who was 75 years of age, was due to heart failure, and being a fleshy man his remains needed embalming promptly, but the authorities refused to let Mr. Morris out to attend to the work so a Rockford firm was summoned.

ON THE VERGE OF RIOT.

Workmen in Montreal Driven to Despair by Want.

MONTREAL, Que., Jan. 17.—Over 3,000 unemployed workmen surrounded the city hall yesterday and threatened to invade the building if their third demand for work was not at once complied with.

Thousands of workmen have been thrown out of employment by the closing of the Canadian Pacific railway shops, and many of the men who have families to support have grown desperate and are prepared to resort to violence. Serious trouble was averted only by the cool heads amongst the leaders. A large delegation was selected to interview the mayor, and the vast crowd remained outside while the delegates entered. William Darlington, a prominent labor leader, warned the mayor that an army of 500 anarchists could be raised in Montreal within twenty-four hours. The question of the moment was: "Shall we have starvation or anarchy?"

Mayor Villeneuve expressed his sympathy with those who were out of employment, and suggested that a requisition be presented to him to call a mass meeting at the board of trade rooms Friday. The requisition was immediately signed and presented to the mayor.

The mob impeded the traffic on the streets and several cars which attempted to pass through were mobbed. Finally a fire engine had to be called out to disperse the crowd, who loitered about the city hall grounds until dusk, and only dispersed when asked by the leaders to await the result of the public meeting.

FAMILIES STARVING.

Miners Willing to Work but Drivers Refuse.

AKRON, Ohio, Jan. 17.—An appeal for aid reached this city yesterday from the coal mines of Thomastown and Lake View, six miles south of here. Representatives of the miners said they and their families were starving to death. The men have had but six weeks of work since last April. A caravan of wagons loaded with provisions was started at once. The miners are willing to accept the terms of the decision of the board of arbitration, but the drivers have refused. An effort is to be made to hold a meeting to-day and settle the matter.

Legislature Will Investigate.

ST. PAUL, Minn., Jan. 17.—The meeting of the house yesterday started off with a broadside by Henry Feig of Kandiyohi county. It was in the form of a resolution providing for a legislative committee of five, to be named by the speaker, "To institute a rigid inquiry into the financial condition and business affairs of banking or other corporations in the state which now hold on deposit or otherwise any public funds whatever." The resolution declares that the state has lost over \$300,000 which was deposited in the banks that have failed, but that this sum is still included in the cash balance, whereas it is lost completely.

In the Michigan Legislature.

LANSING, Mich., Jan. 17.—Representative Donovan of Bay has introduced a bill to require railroad companies operating in this state to issue mileage books which not only shall be good on all roads in Michigan but which also shall be redeemable and interchangeable. SHORTAGE SETTLED BY THE BONDSMEN

\$7,705.30 WAS PAID TO TREASURER FATHERS TODAY.

Understanding Was Reached by the Sureties and the City Last Night and a Compromise Was Agreed Upon Although the Bondsmen Might Have Evaded Payment.

Ex-Treasurer Murphy's bondsmen made a settlement with the city at a special meeting of the council last night and as the result City Treasurer Fathers, this morning, received and accepted for \$7,705.30, the sum agreed upon as a full settlement as far as the bondsmen are concerned. Mayor Thoroughgood presided at the meeting, and all the aldermen were present except Aldermen Baines, Cunningham and Smith.

M. G. Jeffris as attorney for the bondsmen made a statement, that the shortage as claimed was \$8,779.10; that \$917.19 of this amount Murphy never received; that \$62.48 was in legal tax certificates, and \$93.73 in miscellaneous vouchers, leaving only \$7,705.30. He understood the council was willing to accept this, and that the bondsmen were willing to pay the same notwithstanding the fact that the bondsmen could, in his opinion successfully contest the payment on three points as follows:

First—On two of the bonds a member of the common council at that time was surety. There was a serious question for that reason as to the validity of the bond.

Second—Each of the four bonds say on the face that they are for one year. There is a question whether that language would stand good for a term or for one year from the date on which it was signed.

Third—The city treasurer made annual and monthly statements of the condition of the funds in his charge, which accounts were duly audited, which might relieve the sureties.

Bondsmen Would Settle.

Settlement on this basis would be cheaper for the bondsmen than to make a contest with four expensive lawsuits. He said that Mr. Murphy had turned over to the bondsmen all the property supposed to be in his possession, including the old home on Hickory street, with other property he inherited from his mother, and also his Milwaukee avenue property. He said the bondsmen were willing to accept the proposition, and asked the council to adopt the following resolution:

WHEREAS, G. B. Conrad, R. L. Colvin, W. T. Vankirk, C. S. Jackman, Henry Palmer, David Jeffris, J. D. Rexford, A. P. Lovejoy, Charles L. Valentine, Richard O'Donnell, H. F. Bliss, O. F. Nowlan, Stanley B. Smith, J. W. St. John, Isaac Farnsworth, John Nelson and L. B. Carle have heretofore signed various bonds as sureties for Michael Murphy, running to the city of Janesville; and it having been claimed on the part of the city that there has been a default on the part of the said Michael Murphy in his trust relations with the said city as city treasurer of said city during the various terms in which he held said office; and it being claimed by said city that the said sureties heretofore named are liable to said city for various sums and upon various bonds; and it being claimed by said sureties that there is no liability on their part as sureties for said Michael Murphy; and it being claimed by said sureties that the amounts for which they are liable, if any, are undetermined; and there being a difference of opinion between the officers of said city and said sureties as to all questions of liability and the amount thereof; and it being deemed advisable by the officers of said city and by said sureties that the said matters and differences be settled and adjusted without litigation; now, therefore, be it

Resolved, By the mayor and common council of the city of Janesville, that the said city accept from said sureties the sum of \$7,705.30 in full settlement of all claims of the said city against said sureties, or any or either of them, that upon the payment of said sum of \$7,705.30 by said sureties to the city of Janesville, that the said sureties and each of them be absolutely discharged from all liability as sureties upon any bond or bonds for the said Michael Murphy as treasurer of the said city; and that the said sureties, and each of them, be forever released from all liability upon any bond or bonds as sureties for the said Michael Murphy, which bonds were taken by or held by the said city of Janesville, or any officer thereof, and that the receipt by the city treasurer of this city to said bonds

Dated January 16, 1895.
On motion of Alderman McLean the resolution was referred to the city attorney and the finance committee.

A recess was taken to allow an opportunity for consultation and on the re-convening of the council Alderman Child, from the finance committee reported in favor of adopting the resolution, and it was adopted unanimously.

CO-EDUCATION ENDORSED BY THE TRUSTEES AT LAST.

Beginning With the Next Fall Term Women will Stand on the Same Footing as Men In College Affairs—Two Gifts Received of \$1,000.

Girls enter Beloit college at last. The college broke down the barriers yesterday, and beginning next fall women will be admitted on the same conditions of scholarship as the men. The important matter was decided by a vote of the trustees after a discussion which has extended over a period of years.

President Eaton announced the change to an excited audience in the chapel last night. He said that since the trustees and faculty of Beloit college had commenced to discuss the question of admitting women, such institutions as Oxford, Harvard and Yale had bid the women welcome, and now, meeting the demand of the day, Beloit college says to the young women of the region: "Come and enjoy the educational privileges your brothers have so long had."

While the faculty are not favorable to the new arrangement each one will give the experiment an honest trial. The college has enjoyed remarkable prosperity the last few years. The attendance of students has doubled and its endowments trebled, and those enthusiastic over the admission of women believe that this act of the trustees will do more to further its growth than anything else could have done. The older students do not take kindly to co-education but the younger ones are delighted.

It was announced at chapel that Robert Hay, father of H. P. Hay, the senior who was drowned just before last commencement, had given \$1,000 as a fund for annual prizes for essays by seniors, and Horace White, the New York editor, an alumnus, had given \$1,000 to improve the college library building.

RACE FOR \$13,600 OVER THIS TRACK

TEN PURSES OF \$1,000 EACH FOR AGED HORSES.

While Colts Will Go For \$500 and \$800—Five Per Cent. Entrance—Other Classes than those Programmed Will Be Opened—July 22-26 Are the Dates.

Ten races for purses of \$1000 each. Two races for \$800 each. Four races for \$500 each. That's Janesville's programme for next July.

\$13,600 in purses. That's the size of it. For some time Janesville's July race meeting has been in more or less doubt. Nothing definite was known about when it would be or what sums the horses would race for, but it is all settled now with July 22 to 26 as the date and the events are as follows:

No. 1—Two year old trotters that have never started in a race.....	500
No. 2—Three year old trotters that are eligible to the 2:25 class.....	500
No. 3—Three year old trotters eligible to the 2:30 class.....	800
No. 4—Three year old trotters, eligible to the 2:35 class.....	500
No. 5—Two year old and under, horses that have never started in a race.....	500
No. 6—Four year old trotting, eligible for the 2:25 class.....	800
No. 7—2:40 class trotting.....	\$1,000
No. 8—2:25 class trotting.....	1,000
No. 9—2:25 class trotting.....	1,000
No. 10—2:20 class trotting.....	1,000
No. 11—2:10 class trotting.....	1,000
No. 12—2:12 class trotting.....	1,000
No. 13—2:22 class pacing.....	1,000
No. 14—2:29 class pacing.....	1,000
No. 15—2:14 class pacing.....	1,000
No. 16—2:10 class pacing.....	1,000
Total.....	\$13,600

In addition to these regular events there will be classes for 2:32, 2:22, 2:18, and 2:14 trotters and 2:23—2:17 and free-for-all pacers. The entries will close on Saturday, February 16.

This cannot help but be a great meeting as the purses are large enough to attract horses of the highest class and in addition the metropolitan entry fee, five per cent. and five per cent. additional from the winners of money will be in force.

New Rules in Force.

Several innovations in trotting methods will also be in force. One is that upon the payment of one per cent. of the purse on the day the entries close, the nominators may name as many horses as desired; payment will be exacted upon but one until July 1 when the one that is to start must be named. Horses entered in any class that does not fill, may be started in any other class to which the animal is eligible.

Aged horses nominated in the purse races that have been four times winners in any one class, stake or purse, to which their records entitled them to start, will be barred from starting in the same class but may be permitted to start in any purse or class to which they are, by their record, eligible. All races for aged horses are three in five and colts races are two in three. The money is to be divided fifty, twenty-five, fifteen and ten per cent. and five starters are required. The right to declare off any race or purse on or before April 15 and to change the order of the program is reserved. All races will be for the amount guaranteed; no more or no less. The circuit consists of Minneapolis, La Crosse, Janesville, Freeport and Milwaukee. The meeting will precede the western southern circuit and should be the best one that Janesville ever saw. The conditions are unusually liberal with low entrance fee and good sized purses.

I hereby give notice that I intend to make application to the circuit court for the county of Rock on the first day of the January term to be held in the court room in the city of Janesville on the 28th of January 1895, at 10 o'clock a. m. of that day or as soon thereafter as the same can be heard for a judgment against the several lots, lands, pieces and parcels of lands described in a report there and then to be made and filed with the clerk of said court for the unpaid special taxes for paving East and West Milwaukee, streets levied by the common council of the city of Janesville in the year 1894, and all persons interested therein are requested to attend such term of said court and offer their defense, if any they may have, to such application.

Pinched For \$3,000.

No profit isn't exactly the way to conduct a retail store, but we are pinched. We have about \$3,000 worth of Marzluft shoes and a line of fine shoes now being made that are shoes. They will soon be here and to make room, we take the factory cost on every pair of the Marzluft line now in stock. Don't let anybody talk you out of the idea that we are selling those goods at cost. Because they have misled you, it don't follow that we are doing the same.

RESIST THE VACCINATION ORDER

Christian Scientist at Beloit Renews the Old Agitation.
For several months the matter of the right of the school board to require children attending the public schools to be vaccinated, has been before the circuit court of Rock county, the question having been raised by E. J. Adams, a member of the Christian Science church, who secured an order restraining the school board from enforcing its order to that effect. The question is again agitated, W. E. Stevens, also a Christian Scientist, having secured a writ of mandamus permitting his children to attend school without a physician's certificate of proper vaccination. He sets forth the claim that his religious rights are molested by the board's order.

LEFT A YOUNG WIFE WITHOUT A PENNY

LU STONE IS BEING SOUGHT BY THE POLICE.

He was Married "Under Protest" at Beloit a Year Ago, but Now they Say He Gathered Up His Worldly Goods and Departed Leaving Her In Destitute Circumstances.

The police are looking after Lu Stone, a Beloit man who is wanted for deserting the wife whom he married "under protest," and leaving her in a destitute condition.

A short time ago Stone was making good wages in the Rockford watch factory, but now after a career that shows how bad company can influence a young man, he is being looked up.

Lu deserted his wife in Beloit the other day, leaving her without a cent with which to get anything to eat. He was married about a year ago and his bride's father lives in the Line City. The parent is evidently stirred up over the treatment of his daughter and notified the Beloit officers, who sent word to keep an eye out for him. Stone is said to have had \$50 in cash when he left Beloit.

The young man is wanted by the Rockford police on account of an unpaid fine that is hanging over his head. He was arrested some time ago for jumping on a train at Belvidere and riding to Rockford, resisting the conductor who put him off. He had been drinking at the time, and was so repugnant when jailed there that he was left off on promise to pay his fine as soon as he got the money. He never saw fit to pay it, however.

"Stone has not been brought up to me," said Sheriff Appleby this morning. "I saw him here a few days ago, but he has not yet been arrested to my knowledge."

DO YOU FEEL WEAK?

Are You Nervous, Tired and Fretful?

What Would You Give to Be Suddenly Made Well.

You Can Get All Over These Feelings If You Will Do as We Say.

So many people are being cured of nervousness, weakness, tired feeling, sleeplessness, loss of appetite, bad taste in the mouth, biliousness and constipation, by that wonderful medicine, Dr. Greene's Nervura blood and nerve remedy, that it seems as though all such diseases must soon disappear.

And so they would if everybody would take the one medicine which is known to cure them. Mrs. Mary Blood, of Elizabethtown, Essex Co., N. Y., had the good judgment to see this was just what she needed. She took it and got well.

"About three years ago," she says, "I was taken with a mysterious trouble trembling so that I was obliged to give up and go to bed. I had spells of violent vomiting, which ran into dyspepsia of the worst form. One day I was taken with a severe spell of shaking and trembling, and became terribly alarmed."

"I consulted physicians and took their treatment, but got no better. They said it was a severe case of prostration of the nerves, but they could not help me. I took many kinds of medicine, but without benefit."

"I continually grew worse until, if the least excitement came over me I was completely exhausted, and obliged to give up entirely and go to bed. I was a complete wreck for about two years. During this time I doctored continually but without any good result, for I had paid all over my body and suffered awfully."

MRS. MARY BLOOD.

"Nobody can tell how bad I was. One day I took up a paper and saw Dr. Greene's Nervura blood and nerve remedy advertised and the wonderful cures it had performed, and told my husband I thought it would suit my case. We immediately sent out and got a bottle."

"The first bottle I took helped me, and after I had taken five bottles I was completely cured. Myself and daughter did the work, including washing, for city boarders, eighteen in the family, and did it easily."

"I could sleep well nights, my food digested well, my nervousness all left me, and I felt like a new woman. My husband said my sleeping well was worth one hundred dollars to him in not keeping him awake nights as I used to."

"I think Dr. Greene's Nervura blood and nerve remedy is one of the best medicines there is, and I sincerely believe that if everybody would take more of it they would be far better. I cannot say enough in praise of this medicine. I most gladly and joyously write this for the public benefit, and send my blessing along with it."

Such strong testimonials as this count. If all the suffering men and women in this broad land could know the great good, the strong nerves, pure blood, and perfect health which would come to them by using Dr. Greene's Nervura blood and nerve remedy, how quickly they would take Mrs. Blood's advice, and get well.

There are thousands of persons who are not sick with any particular disease, but are just out of order, have weak nerves and tired bodies. They do not eat or sleep well, and wake tired mornings with dull feeling head and coated tongue. They don't feel well, have lost their snap and energy, and work has become an effort. All such people will find in Dr. Green's Nervura blood and nerve remedy the magic wand that will make them well.

It is not a patent medicine, but a prescription of the most successful living specialist in curing nervous and chronic diseases, Dr. Greene, of 35 West 11th street, New York City. He has the largest practice in the world and this grand medical discovery is the result of his vast experience. The great reputation that his medicine will cure, and the fact that he can be consulted by any one at any time free of charge, especially by letter, give absolute assurance of the beneficial action of this wonderful medicine.

If the Baby is Cutting Teeth, be sure and use that old and well tried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

TOWN STOOD OVER A BIG MAGAZINE

EXPLOSIVE ENOUGH IN STORES TO BLOW IT UP.

Butte, Montana, Horror Shock the Aldermen Into Resolving that the Powder Ordinance Be Enforced and Dynamite, etc., be Isolated and Stored as the Law Requires.

Powder and dynamite enough to blow the city into kingdom come, is stored in Janesville stores.

This was the declaration that was made yesterday. Then came the story of the fearful accident at Butte, Montana.

That "shook up the Janesville aldermen to action. They resolved last night to enforce the local powder ordinance, which has been a dead letter on the ordinance book for years. This ordinance prohibits the storage of powder in stores, etc., and also forbids its sale after sundown. The matter came before the council, when Alderman Rich introduced an order, which was unanimously adopted, directing Chief Acheson to see that the regulations were lived up to.

It is claimed that many dealers have large quantities of powder and dynamite stored in their stores, some in basements and in other places, exposed to fire as much as any other property. This resolution will compel those dealers to place those explosives in the magazine designated by the city, which, at present, is that owned by F. F. Pierson, on Goose Island, near the old "pest house."

THIS DAY IN HISTORY

1706—Benjamin Franklin born in Boston; died 1790.
1771—Charles Brockden Brown, noted early American novelist, born in Philadelphia; died 1810.
1800—Caleb Cushing, American statesman, born; died 1879.

1893—General Rutherford Birchard Hayes, ex-president of the United States, died at Fremont, O.; born 1822.

A HOLLOW MOCKERY.

The false statements and misrepresentations by which the Peck administration sought re-election are now being uncovered. The scheme was to cover up the actual condition of the state treasury, and deceive the people in the expectation that if by these and other deceptions the old officers could be re-elected they would have two years more in which to straighten out the state's finances and cover up their tracks. During the campaign while the unpaid debts of the state were piling up in the pigeon holes of auditing boards, statements were issued with great flourishes showing the immense amount of surplus on hand, accumulated through the admirable economy of this wonderful reform administration.

According to Treasurer Hunner's report last October there was a surplus of over one million dollars in cash. It now appears that this million was more than offset by unpaid bills, and between election time and the transfer of the books to the new state officers this million dollars disappeared and the general fund was overdrawn \$323. But this is not all. Not only did the republican incoming officers find the general fund overdrawn but they found \$112,000 of duly audited accounts, ranging back over the last two years stacked up in the auditor's desks for the new administration to pay out of a bankrupted treasury.

GOOD ROADS IN THE COUNTY.

Criticism on the road question is easy but providing a remedy is difficult. If there were everywhere a local pride in the good roads of the neighborhood, it would be created and kept awakened, it would be a factor. Commutation of road taxes should be abolished, and the contract system employed in its place. County roads made into a system radiating from the county seat and put exclusively in charge of the county commissioners would be better than the present plan State supervision, and especially state aid, is not to be thought of. The field is too vast and the expense too enormous. Wise legislation reforming our road laws, is imperatively needed, but the work of improvement must be done on local lines, and mainly in the way of stirring up a larger local spirit. Good road clubs might be formed, and the state might set aside a sum to be awarded as prizes to the best made country roads. This discussion will in itself be a factor towards awakening a more general interest than now exists.

Many delegations from various sections of the country are wasting good money by going to Washington to ask for legislation of special interest to their section. This congress will do little besides passing the appropriation bills, and if it doesn't work faster than it has been doing it will not get all of them through.

Mr. Cleveland made another mistake in recommending that congress agree to Great Britain acquiring a proprietary interest in one of the Hawaiian islands. Congress isn't wise, but it will hardly fail to turn down that recommendation.

How does the administration reconcile the ports of continental Europe being closed to American meats, with its promise to extend the foreign markets for American products. Or did it in the first place mean contract, instead of extend.

Secretary Carlisle says he cannot see why the people are not satisfied with any sort of money given them. For the same reason, Mr. Secretary, that they are not satisfied with the present secretary of the treasury—lack of confidence.

Mr. Cleveland should put a smart detective on the trail of the missing democratic unity. He may locate it, but it will not be found either in congress or in the cabinet.

The sound of the rickety band organ will soon be familiar on the most lonely roads of Arkansas. A colony of Italians is to be started in that state.

According to Senator Hill, the income tax is unjust; likewise, uncon-

stitutional, unweildy and unworkable—for the rest see any unabridged dictionary.

Congressman Springer may find the wreck of the administration currency bill in the way of his sailing into a lifetime anchorage in judiciary harbor.

Want Two Days for Talk of Ricks.

WASHINGTON, Jan. 17.—The house judiciary committee has decided to take two days—Saturday and Monday—for debate on the Ricks impeachment resolution in the house. While there is a possibility, according to members who oppose impeachment, that Mr. Broderick's minority report may be substituted for the majority report in Friday's committee meeting, some of Mr. Ricks' friends declare he would prefer to obtain the verdict of the whole house rather than have the charges stifled by a bare majority vote in the committee. Mr. Bailey thinks the senate should be able to dispose of the matter this session. The case is so simple, he says, it should consume but a few days.

Bryan's Proposal to Guard Gold.

WASHINGTON, Jan. 17.—Representative Bryan (dem., Neb.) has introduced a bill to provide for the coinage of the seigniorage. A feature of the bill provides any person presenting to the treasury greenbacks or treasury notes and demanding their redemption in gold or silver for the purpose of embarrassing the government, injuring its credit, or compelling or securing an issue of bonds shall be guilty of a misdemeanor and upon conviction be punished by imprisonment for not less than five years.

IT STOPS THE PROGRESS of Consumption. The makers of Dr. Pierce's Golden Medical Discovery are certain of it. They've proved it for years past—and they're willing to sell it with the agreement that if it doesn't benefit or cure, in every case, they'll return the money. Consumption is that scrofulous condition that comes from impure blood. The "Discovery" prevents it, if taken in time; cures it completely, if you haven't waited too long; gives relief and comfort, even in advanced cases. Use it in severe, lingering Coughs, Asthma, Weak Lungs, and every Bronchial, Throat, and Lung Affection.

D. C. ROSENBAUM, Esq., of Dutch, Cranger Co., Tenn., writes as follows: "I had been going down in strength and weight for months. I was not able to stir and I smothered very often. After taking 'Discovery' my cough was relieved, I could walk three miles without trouble, catching cold don't distress me now. As long as I live I'll praise 'G. M. D.'"

GROCERIES CUT PRICES ON THE STAFF OF LIFE.

Three Loaves for a Dime and Flour at a Corresponding Discount—Skipped a Board Bill but Hasn't Been Tried—Brief Bits of Local News.

A BREAD war and a flour war! Who says the wind is not tempered to the shorn housekeeper? Whoever he may be has but to read The Gazette advertisements to realize his mistake. Dunn Brothers started the performance by cutting flour prices from \$1 to 87 cents on some brands and from \$1 to 77 cents on another. Other people took steps to meet this. As flour went down Grubb Bros. got the idea that bread ought to go down, too. Yesterday afternoon they bought G. A. Shurtleff's bakery and prepared to put a wagon on the street. They announced that two loaves of bread would be sold for seven cents, while A. C. Munger and Dunn Brothers held out inducements for the purchase of larger quantities by selling three loaves for a dime. By the end of next week Gazette advertisements may tell of bread free, with butter and jelly thrown in.

There will be a card party and lunch given by the ladies of the Union Catholic League this evening at the U. C. L. club room. Free to the members of the league; no others will be admitted, except where husband or wife is a member, the other will be welcome.

ASSEMBLYMAN KIMBALL was appointed by Speaker Burrows chairman of the assembly committee on charitable and penal institutions while Assemblyman S. S. Jones of Clinton was made a member of the dairy and food and road and bridge committees.

INITIATIONS are out for a dancing party to be given at the Armory on Saturday evening, January 26, at 7:30 o'clock, and the hostesses will be Mrs. C. C. Maclean, Mrs. D. K. Jeffris, Mrs. C. B. Bostwick, Miss McKinney, Miss Hanchett and Miss Sutherland.

We have seen bankrupt sales, fire sales, closing out sales, assignee sales, sheriff sales and all other kind of sales and we will say to you candidly that none of them ever slaughtered high grade, merchant tailor clothing as we are doing now. T. J. Ziegler.

The monthly inspection of the Janesville Light Infantry will come off at the Armory tonight and will be followed by a dancing party in which members of the company and their friends will join.

We want to turn our stock into cash so bad that we never allow a person to leave without buying, no difference what the sacrifice. See prices in large ad. Lloyd & Son, 57 W. Milwaukee.

TOMORROW evening the Knights of Pythias and their ladies will enjoy a social dancing party in Castle hall. Hupke's full orchestra will play, and dancing will begin at 8 o'clock.

We want money and are making great sacrifices to get it. Look for 57 W. Milwaukee St. and be sure you are in the right place. Lloyd & Son.

Will Campbell Whipped a Hired Man, Chewed William Hamlin's Finger and Threw Iron Statuary at Mrs. Hamlin—Ninety Days in Jail His Reward.

When little Will Campbell, a meek-looking stripling of twenty summers, heaved an iron statue at Mrs. William Hamlin, chewed her husband's finger half off and whipped the burly hired man he did a full day's work. Judge Phelps thought he must need plenty of rest after such a task and he sent Campbell down for ninety days this morning in default of a \$50 fine. Campbell was Sheriff Appleby's first prisoner, being landed in jail five minutes after the new administration began.

Campbell, who weighs 110 pounds, staggered into Hamlin's barn near Beloit and offered William Fredericks, the hired man, a drink out of a bottle. Fredericks refused and was punched most lustily for his unsociability.

Mrs. Hamlin ran out at the sound of the fight, but was terrified by an iron pug dog whirling through the air in her direction. She shrieked to her husband, and Hamlin partly evened the score by raising lumps on Campbell's head. Campbell did his best to secure an offset by chewing Hamlin's finger while the thrashing was being administered, and in consequence of his industry and perseverance, he built up foundations for four criminal charges.

The charge of mayhem may be tried before Judge Bennett. The charge made in Judge Phelps' court today was for assault with intent to do great bodily harm. A nolle was entered as to the intent, and the boy pleaded guilty to simple assault.

ALBANY RIOT CASE AGAIN IN COURT

WILLIAM J. HAHN AND HIS
ARMY HAULED UP.

N. B. Robinson's Constable Tried to Levy on a Stock of Beer with a Worthless Execution and Dropped their Case but the Fight that Followed Is to Be Investigated.

N. B. Robinson is at Monroe as a witness in the case of the state against William J. Hahn, Will Arkinson, Mart Tilly, James Lloyd, James Montgomery, Ed. Dorr, and Adrian Gosling, who are charged with riot. The case is the somewhat famous war at "Camp 20" a "club room" run by W. J. Hahn at Albany. Hahn, it will be remembered owed N. B. Robinson & Co. \$190. Later on he traded a mortgage for \$2,900 to the Schlitz Brewing Company for \$1,500 in cash and \$1,400 worth of beer. Mr. Robinson wanted his money so he got a writ of attachment, gave it to Constable Kavanaugh and they went to levy on the beer. They didn't levy. When Hahn and his associates got through "defending" their property, Constable Kavanaugh had two broken ribs and the others had some valuable experience while Hahn was still possessed of the beer, the fort, and his well earned reputation for not losing his head when he was cornered. The Robinsons retired and left Hahn in control but the charge of riot was laid up against Hahn and his army.

Papers Were Not Good.

Hahn had been a justice of the peace, constable and deputy sheriff during his somewhat varied career, and he knew all the complications that gather about the process of the law. He knew that an execution that bore the name of "N. B. Robinson & Company" was not worth the paper it was written on. He knew that it should read "N. B. Robinson and Alexander McClellan co-partners in the firm of N. B. Robinson & Company." He knew too, that with nothing but faulty papers behind them, the constable and his posse were mere trespassers and that they had no business to invade his domain. That's way Mr. Robinson didn't get his money on that deal, and it didn't take long for him to settle with Hahn and give him a receipt in full in addition to paying costs and some of the attorney's fees. But the riot charge was not so easily disposed of. The fight that followed the attempted levy, resulted in the more or less general use of pistols, knives, beer bottles and axes. The battle was a wicked one and even when the constable was reinforced by Under Sheriff Hawver, the officers of the law were routed. The case came before Court Commissioner Luchsinger at Monroe yesterday. Hahn said that he didn't indulge in a riot but mildly claimed that he had to defend his place when it was attacked.

Said He Dispersed a Mob.
"We defended it," he stated, "and I am told that the constable had two ribs fractured. But we had to disperse the crowd who were unlawfully besieging us and they said that while we were dispersing them that Kavanaugh got hurt."

Attorney Colin W. Wright, J. L. Sherron of Monroe, and Smith & Pierce of this city, have charge of the defense and District Attorney A. S. Douglass will be assisted by P. J. Clawson for the state. Besides this the state has nine cases against the "camp" for the illegal sale of liquor that will be heard on January 24. Mr. Robinson is simply a witness in the case as his personal claim has been fully settled. Hahn is said to be quite a character and the story of his different experiences would make quite a book.

A TUMBLE IN BREAD.

The Shurtleff Bakery Sold to Grubb Bros Two Loaves for Seven Cents.

The Shurtleff Bakery one of the oldest and best known in the city has been sold to Grubb Bros., the West Side grocers. It will be the endeavor of the new proprietors to advance the interests of the bakery and to this end will make nothing but genuine home-made potato bread, as this kind of bread will give much better satisfaction and keep moist much longer. All mince pies will be made from pure home made mince meat and everything in fact same as one gets at home, same as mother makes, even the doughnuts will be free from grease. In the pie and cake department they will greatly excel as they have the best cake baker in the state, the best fine cream and banquet cakes always on hand. It has been a known fact for the past two years that bread could be made and sold much cheaper than 5 cents a loaf, as cheap as flour is, and Grubb Bros. will, commencing today, sell double loaves for seven cents. Should any others meet this price, this house deserves the business anyway, as they will have been the means of the reduction. However, let that be as it will, they will have a delivery wagon always at your service and will deliver the only home made potato bread, pies and cakes in the city direct to your door at any time, and you can also find a full line at all times at their store.

Notice to Contractors and Builders.

CHAMPION PACING MARE IS DEAD

May Marshall, Who Won Her Second Winning Race Here Expires.

May Marshall, 2:08 1/2, the champion pacing mare of the United States, owned by M. E. McHenry, the well known Freeport horseman, died at that city yesterday. The mare paced in the second winning race of her life in Janesville on June 23, 1893 and won the money. She was then in the 2:35 class but before the end of the season she had reduced her record to 2:08 1/2 and \$10,000 had been refused for her. Mr. McHenry had hoped to get her ready for the big circuits next summer and felt confident that she would come down to the two minute mark. He had no insurance so the loss is a heavy one, as he had paid \$3000 for her as a three year old.

EXPERT TO EXAMINE THE COUNTY BOOKS

AUDITING COMMITTEE TO BE
DISPENSED WITH.

Township System of Caring for Poor Not Endorsed—Legislation Sought Compelling the City to Contribute Saloon Licenses to the County Pauper Fund.

An expert accountant will examine the books of Rock county officers each year, hereafter, instead of the usual auditing committee. This excellent decision was made by the county board today before adjourning. The annual appropriations for the various offices and departments, including salaries, were made and a number of resolutions were adopted—one by supervisor Egerton, asking for legislation to compel the payment of saloon license money into the county poor fund; favoring uniform text books in the common schools; and providing for the publication of the board proceedings in pamphlet form. Supervisor Powers made another attempt to establish the township system of caring for the poor, but the resolution was laid over until the next November session.

ONLY FOUR PASSED THE POSTAL TEST

TEN JANESVILLE CANDIDATES
FAILED.

L. A. Williams Is In Line for a Clerkship and J. F. Williams, J. T. Fitchett and George Schaller for Positions as Carriers—How Appointments are Made.

The fourteen Janesville people who gathered in the Lincoln school building and took a competitive civil service examination for positions in the post office have heard the result.

Ten of the fourteen are sorely disappointed.

Their papers came back with a "below standard" mark. Four of the fourteen were successful, but two of these escaped by a very small margin. The successful candidates are:

For clerkship—L. A. Williams.
For carriers—J. F. Williams, J. T. Fitchett, George Schaller.

The examination papers, which were marked by the civil service board in Washington, came back endorsed 71.28, 85.45, 87.70 and 71.90. When marked 70 or below the applicant does not pass. The papers were returned to the president of the local board, Mrs. M. L. Peterson. When Postmaster Wilson wants to make an appointment the president of the local board gives him a list of three who have passed the examination and from these the postmaster makes his appointment. George Schaller is acting now as substitute carrier.

PLANT WORSHIPERS.

Some of Them Still Linger in Certain Portions of Italy.

The plant worshipers who hold so prominent a place in the history of the primitive races of mankind would appear to have sprung from a perception of the beauty and utility of trees. Survivals of this still linger in many parts of Europe. The peasants of Bohemia will sally forth into their gardens before sunrise on Good Friday, and, falling upon their knees before a tree, will exclaim, "I pray, O green tree, that God may make thee good." At night time they will run to and fro about their gardens crying, "Bud, O trees, bud or I will flog you."

In England the Devonshire farmers and their men will to this day go out into their orchards after supper on the evening of the Twelfth-day, carrying with them a large milk-pail of cider, with roasted apples pressed into it. All present hold in their hands an earthenware cup filled with liquor, and taking up their stand beneath those apple trees which have borne the most fruit, address them in these words:

Health to thee, good apple tree,
Well to bear pocket-fulls, hat-fulls
Peach-fulls, bushel-bag-fulls
simultaneously dashing the contents of their cups over the trees. In most countries certain plants are to be found associated with witches and their craft.

Making Soldier Clothes to Fit.

"Does your clothing fit you?" is likely to become a common question among the soldiers. It has been a custom largely followed by soldiers to draw clothing from the quartermaster's stores larger in size than needed, so that they could have it made over and fitted better to the person; but the quartermaster general thinks this an unnecessary expense, to the soldiers, and a few days ago wrote a requisition directing attention to that part of the army regulations which specifies that "no issues of clothing of larger sizes than actually needed for the enlisted men, for the purpose of altering them into smaller sizes can be made," and which also makes it a duty of the commanding officers to see that the unmade clothing, when made, conforms strictly to the standard patterns.

Cycle for Lazy People.

The queerest vehicle was seen recently in New York. A large crowd gathered and discussed the two black footmen, the bicycle wheels and pedals and the box—like that of a hansom cab—in which Charles Schwabach was seated. The rig is called "the hansom cab cycle," and is an adaptation of the modern tricycle to the uses of women, invalids or lazy persons, who may choose to ride over pneumatic-tired wheels and let somebody else do the propelling. There is a saddle over the front driving wheel and another over the two rear wheels. Two colored men in high hats occupied these saddles and worked the pedals. The machine was designed by Mr. Schwabach of Brooklyn.

"The heading I wrote for this article about the assembling of the members of the legislature at the state capital," said the editor, "was 'All Quiet Among the Solons,' and you let it go 'All Quiet Among the Saloons.'"

The One to Blame.

Hope Crushed to Earth
Will rise again in the bosom of a dyspeptic wise enough to substitute for the remedies which have bamboozled him out of his belief the possibility of cure, the real invigorating stomachic, Hesther's Stomach Bitters. The bilious, the nervous, the dyspeptic, the rheumatic alike derive speedy benefit from this helpful botanical medicine. Persons suffering from indigestion will find no more permanent good from the very unmediated stimulants of commerce, too often used recklessly. The Bitters is measurably preferred to these as a tonic, since its purgative ingredients of the highest medicinal excellence. Malacia is prevented and remedied by it, and it infuses vigor into the weak and sickly. A wineglassful three times a day is the average dose.

Second Guest—I guess you never heard her express herself. She is my wife.—Cincinnati Tribune.

The Reason Why.
Mrs. Paddington—It makes me sick to hear men talk of being "self made." Now, I'll wager you never heard a woman say she was "self made."
Mr. Paddington—No; they generally keep that as quiet as possible.—Puck.

and from all such disfigurements and blemishes, follows the use of the Carlsbad Sprudell Salt. It clears and freshens the skin wonderfully—takes away that dull and mottled look that comes from stomach derangements. Even in chronic and stubborn cases of skin disorders, like eczema, it is the prescribed remedy.

The blood, the liver, the stomach, the kidneys—all are acted upon powerfully, but naturally, by the Carlsbad Sprudell Salt. You get the same benefit, the same cure, the same feeling of lightness and clearness all through your system, as if you were at Carlsbad itself. Beware of the many imitations sold as "improved" or "artificial" Carlsbad Salt. These are only mixtures of Seidlitz Powder and common Glauber Salt, sold by unscrupulous dealers for the larger profit they yield. Insist upon the genuine imported, natural Carlsbad Sprudell Salt, which is evaporated from the Sprudell Spring at Carlsbad, and bears the seal of the city and the signature of "EISNER & MENDELSON CO., Sole Agents, New York," on every bottle.

SURROUNDED BY MYSTERY!

A Great Mistake.

A recent discovery is that headache, dizziness, confusion of the mind, etc., are due to derangement of the nervous centers which supply the brain with nerve forces that indigestion, dyspepsia, neuralgia, wind in stomach, etc., arise from the derangement of the nerve centers supplying these organs with nerve fluid or force. This is likewise true of many diseases of the heart and lungs. The nerve system is like a telegraph system as will be seen by the accompanying diagram.

Franklin Miles, M. D., L. L. B., the highly celebrated specialist and student of nervous diseases, and author of many noted treatises on the latter subject, long since realized the truth of the first statement, and his Restorative Nerve is prepared on that principle. Its success in curing all diseases arising from derangement of the nervous system is wonderful, as the thousands of unsolicited testimonials in possession of the company manufacturing the remedy amply prove.
Dr. Miles' Restorative Nerve is a reliable remedy for all nervous diseases, such as headache, nervous debility, prostration, sleeplessness, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is sold by all druggists on a positive guarantee, or sent direct by Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid.
Restorative Nerve positively contains no opiates or dangerous drugs.

Dr. E. C. West's Nerve and Brain Treatment is a positive written guarantee, by authorized agents, of a cure for: Weak Memory; Loss of Brain and Nerve Power; Lost Manhood; Quiescence; Sight Losses; Evil Dreams; Lack of Confidence; Nervousness; Lassitude; all Drains; Loss of Power of the Generative Organs in either sex, caused by over-exertion; Youthful Errors; or Excessive Use of Tobacco, Opium or Liquor, which lead to: Misery, Consumption, Insanity and Death. By mail, in a box, 6 for \$5; with written guarantee to cure or refund money. WEST'S COUGH SYRUP, A certain cure for Coughs, Colds, Asthma, Bronchitis, Whooping Cough, Sore Throat. Pleasant to take. Small-size discount. Old, 50c size, now 25c; old 10c size, now 5c. GUARANTEE: If not cured, money refunded.

How to Cure a Red Nose—Continued Popularity of Lace.

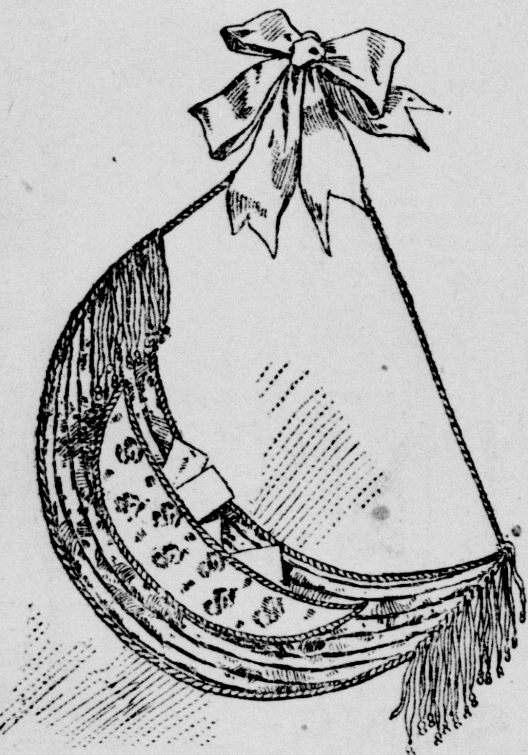

Constitutional redness of the nose is one of the most trying personal defects from which a woman can suffer. A well known physician has recently been experimenting with a view to overcoming this trouble when it does not arise from such direct cause as tight lacing. The treatment he advises is the systematic application of the galvanic current. Both poles are applied to the nose and are continually moved about. The strength of the current he has regulated by the amount of burning complained of by the patient. This applica-

tion is followed by an intense redness of the skin, which lasts for an interval of 2 to 48 hours. Too strong currents must be avoided, on account of the excessive irritation they produce. The applications are repeated at intervals of two or three days. The method requires patience and a considerable number of applications—at least 10 to 15 and sometimes even as many as 30 sittings. The method has been used in a number of cases, always with success.

The short jacket with a full basque is still the accepted style, with the usual large sleeves and broad revers, the latter being of the same goods as the jacket or of velvet, silk or fur. Braiding, and especially stitched bands of cloth forming motifs, is the fashionable decoration for these garments.

Lace is used in profusion upon everything and is associated with every material, even with fur. The heavy guipures are employed mainly and are often applied flat to show the pattern well.

Paris is inexhaustible in the invention of small fancy articles, the manufacturing of which may serve to give some occupation to idle hands. A crescent cardholder is one of the newest of these trifles. It is made of two crescents of cardboard, one several sizes larger than the other. The larger one is covered with moss green satin laid in fine, flat plaits and is edged with silk cord. A fringe of narrow ribbons, each terminating in a bead, is sewed near the points. The smaller cardboard crescent is covered with pink brocade and tacked by a few stitches to the face of the larger one. The cardholder is suspended by a loop covered with a bow of ribbon.

BEAUTY AND HYGIENE.

Simple Living the Secret of Retaining the Freshness of Youth.

Writers on that topic of never failing interest, personal beauty, are beginning to look below the surface and to realize that lotions and salves have less to do with it than hygiene and good domestic economy. They tell us that it is usually the nonessentials that take away youth and life. We must learn to simplify before we can escape the doom of premature age. Nature never intended us to live as we do. If she meant us to eat puff pastry, she would have grown it on some of her trees. She has provided simple food in the shape of cereals, fruits and vegetables, and if we

GET OF DOOR CROWN.

conformed ourselves more closely to her established order of diet we should be a happier and harder race. The only thing that is ever going to solve the domestic problem is simplification, and the sooner we begin to simplify, both in the manner of our living and what we expect of those who serve us, the better it will be for mistress and maid. We talk much of the good and faithful servants of two or three generations ago. Did our great grandmothers require their meals served in several courses and an extra plate for everything from bread and butter through to sauce and cheese? A dinner of 50 years ago was served all in one course, and the mistress helped both in the serving and the removal. Now she sits with her toe on an electric bell under the table and requires as complete a paraphernalia of service as appertains to the house of a grand duke.

Although pretty clothes cannot make an old woman young, they are a great aid to beauty and to self respect. An illustration is given of an effective out of door gown of green cloth. The skirt forms pockets at the back and sides and is trimmed with three bands of mink. The bodice is gathered front and back and has a short velvet basque bordered with fur. The extremely short figaro vest of green velvet is cut in points before at the back and has a flaring collar edged with fur and lined with old gold satin. The corsage opens over an embroidered plastron of white cloth. The tight velvet sleeves are bordered with fur at the wrist, a full cloth cuff covering the upper part. The belt is of velvet.
